SMALL HOUSE

At the exposition at the Grand Central Palace of architecture and allied arts the small house for the suburbs has its place in a group of exhibits on the third floor. Models of houses built by the HomeLand Company in different parts of Westchester County are among the exhibits included in the booth of Architectural Miniatures. In the adjoining example of informal landscaping of a typical suburban plot, around a reproduction of a low, rambling stone house, in Honesonwood, which has attracted endless comment since it was built a few years ago.

GEDNEY FARM

Just Lift the Latch...and Move In

It's the things you don't have to do that make this house. Someone has taken it from the crude new state and treated it with the luxury of beautiful rare trees, every variety of flowering and shrubs, perennial gardens, a veritable bower of garden and trees. Situated right on the "top of Gedney" with a view over the hills of Purchase. A charming English type, with 8 rooms, 3 baths, 2 car garage, hot water heat, metal casement windows, metal screens, parquet floor, an oil burner. No expense has been spared to make this a real home and we envy the man who moves in and takes advantage of the time and money necessary to create such a setting.

The price is \$37,500 and an inspection will prove that it represents a real genuine value.
