The Sale Is Almost Over!

Just a few of these Grand pianos left

By the time this ad reaches you just a few of the Grand pianos apportioned to us for this great cooperative sale will be left—but these will be snapped up in the morning. After that we will take orders until the close of business on Monday evening. This is a concession to belated buyers.

In all our estimates we had fully expected the sale to take two weeks longer. But it ran away with us. We are practically sold out today.

So we say that booking orders for later delivery is a concession to belated buyers. We, ourselves, know a number of persons who fully intended taking advantage of this sale, and who for one reason or another have been prevented from doing so. This still gives them the opportunity.

....This Sale will positively end MONDAY with the closing of our store

After that time no more orders for these pianos will be received at this price, on these terms or under these conditions of sale. Until that time orders will be received and filled in the order taken.

No firm could afford to sell Grand pianos of the quality offered in this sale continuously—upon these terms. No house could go on from day to day, month in and month out and give such liberal conditions of sale. The profits are too small.

This sale has served its purpose. It has enabled us to supply many persons with reliable Grand pianos at \$435 each. Only by crowding these sales into the space of a few weeks, and saving huge sums in overhead, was the success of this sale assured. To run it longer would be to defeat its purpose. So for the last time—

Don't delay any longer if you want one of these thoroughly reliable Grand pianos at
