KATONAH, N. Y., FRIDAY, AUGUST 18, 1899.

\$1.50 A YEAR

Attaining and Retaining

are two very different things—Many men attain wealth—Very few retain it. Many men make a fortune in a few years—and then lose it all during the next few years. Many men make large incomes and give their families Every luxury—and then die without leaving a cent behind them to provide even necessities for their families. One of the best ways of retaining wealth is by means of an Endowment policy—You can't spend it—and it provides for your family if you die—Helps to provide for your own maturer years if you live.

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES. "Strongest in the World."

County News.

Governor Visits Yonkers.

MR. ROOSEVELT SPEAKS TO THE FIREMEN AND THE NATIONAL GUARD.

The annual convention of the New York State Firemen's Association was opened in Yonkers about 10 o'clock Tuesday. The city was elaborately decorated with flags and bunting, and the citizens made it a holiday. In Getty Square a large triumphal arch was erected, and at night it was bright with red, white and blue electric lights. Many of the public buildings were beautiful, particularly so was the Historic Manor Hall. The opening exercises were held in the Opera House, but the feature of the day was the arrival of Governor Roosevelt on the 3:31 o'clock train in the afternoon. When the train drew in the Station all the square in front was packed with people eager to get a glimpse of the Governor. The Reception Committee was escorted to the station by Company A, 1st Regiment of the National Guard, and arrived about five minutes before the train.

The Governor was escorted to a carriage, in which he rode with Mayor Sutherland, ex-Senator Burns and John Mulligan. The procession went down Buena Vista, to Hudson-st., to South Broadway, through the arch erected in Getty Square, and thence to Warburton ave., where a stand had been erected for the speakers and a band, and decorated with flags and bunting. Camps were alike at the Governor, and he was as quiet under the ordeal as he well could be. Chairman Mulligan of the Reception Committee, on behalf of the firemen and citizens of Yonkers, tendered a hearty welcome to the Governor and introduced Mayor Sutherland, who said:

"To me is given the honor of introducing to you, fellow citizens, the Hon. Theodore Roosevelt, Governor of the State of New York. He needs no formal introduction, for history has and will record his deeds forever."

Governor Roosevelt then said: "Mr. Mayor and Fellow Citizens, I am gratified to have offered me the honor of being with you to-day, for I am sure that I have received your generous welcome. I am glad to see you, the volunteer firemen, and what I have to say is largely to be to them. How glad I am also to have met this League and Waits Orphan Asylum Band on the platform here! What a good thing it is to have an institution like that to turn out decent and honorable citizens to shape the affairs of the country in the future as good citizens!"

I am glad to be met by the clergy, laity and men of all shades of politics and civic organizations. I am glad to see before me some of the old volunteers of the firemen, whose work it is in time of peace to do that which the soldier had to do in time of war. They have the courage and bravery to meet danger at all times. I thank you for the courtesy extended to me on my visit to your city.

The assessors of all the townships in Westchester County held a meeting on Tuesday to hear grievances and protests from taxpayers dissatisfied with the valuations placed upon their property. In Mount Pleasant the Board was kept busy all day examining taxpayers. John D. Rockefeller will file a protest, through his counsel, who may supplement it by addressing the Board.

Workmen are making improvements to the High School Building, of White Plains. The assembly room is being remodelled at a cost of \$1,000. A partition has been erected in the assembly room of the Fisher-ave. schoolhouse, making two new class rooms, which will be needed for the increasing number of children. The Board of Education is making every preparation to have the schools ready when the term begins next month.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; to frequent desire to pass it or pain in the back is also convincing proof that the kidney and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge. So often expressed, that Mr. Kilmer's Swamp Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain in passing it, or bad effects following the use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day; and to get up many times during the night. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its most wonderful cures of the most distressing cases. If you need a medicine you should have the best. At drug-gists fifty cents or one dollar.

You may have a sample bottle and a book that tells more about it both sent absolutely free.

A drove of Mormon missionaries have prevailed the mountain regions of Eastern Tennessee and Kentucky for many years preaching their gospel among the people unopposed, and with some measure of acceptance. But a change of public sentiment has taken place toward them, and their ministrations are met with an answering count of tar and feathers, a most many decoration not at all encouraging to apostolic work. But, considering the character of the people among whom they have extended their labors, they are fortunate in getting out of their society with a "big shoo."

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa. when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that many years had been a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain from my chest and now I can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises through the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c and \$1.00. Trial bottle free at F. W. Gorham's Katonah, and G. W. Croton, Falls. Drug Store, every bottle guaranteed.

POPULATION.

About a year from now the decennial count of the people of the United States will be made. Already curiosity is keen in anticipation of the result, and speculation is figuring on it extensively. Pools are being formed to which many guesses contribute an equal sum of money, the one coming nearest to the census figures to take the pot.

Some enterprising newspapers have announced that they will print census coupons on which their readers may guess for prizes either made up by their own contributions or offered by the paper.

The census estimates which are now being made show a very wide difference of judgment, ranging from less than 75,000,000 as high as 80,000,000.

There is good reason to believe that the census figure will be found nearer to the latter figure, we refer to the population of the United States proper, taking no account of the Philippines, Porto Rico and Hawaii.

The treasury department publishes every month an estimate of the population of the United States proper in order to figure out the per capita circulation of money. The report issued May 1st puts the population at 75,875,000, an increase of 138,000 for the month of April, and of 545,000 for the four completed months of the present calendar year. The treasury is accused of figuring the population too low in order to make the per capita circulation seem greater than it really is, but we are convinced that its estimate is too high rather than too small. Population is nearly always overestimated.

We have often seen cities and towns, especially those afflicted with booms, claim twice as much population as actual enumeration showed them to possess. A cry of disappointment arises in many quarters just after each census, and the census-bureau is besieged by many demands for recounts. In 1880, up to the very publication of the official reports, most of the people and newspapers of St. Louis contended that the city had as large a population as Chicago; it was shown to have little more than half as much. There is an interminable argument as to whether Chicago or New York City proper has more people. Chicago casts more votes and has more children in her public schools, but the average New Yorker laughs at the idea that Chicago's population is really the larger in spite of these strong indications.

The pride of population has very little just foundation. One of the poorest recommendations of any community is that which is based on mere numbers. If numbers indicate greatness China-outclasses by far any other nation. There are cities in the United States which in their influence and in every element that goes to make up a really prosperous and desirable place of residence, are vastly superior to other cities which have two or three times as many people.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I give it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time, the child had been sick for about ten days and was having twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumtown, Gilmer Co., W. Va. For sale by F. W. Gorham, Katonah, G. W. Abrams, Croton Falls and Green Bros., Goldens Bridge.

THE NEWS IN BRIEF.

Télégraphic Gleanings From All Parts of the World.

Some of the striking smelter employees in Denver have declared the strike off.

The fifth instalment of gold certificates was received at the Sub-Treasury in New York.

Mrs. Burnhart of Scottsburg, N. Y., was thrown from a buggy and killed at Rochester, N. Y.

Edwin B. Gillinder, four years old, ate strychnine pills for candy at Asbury Park and died.

Locked out employees of the Chattanooga street railway attacked cars, and injured several persons.

Baron von Sternberg and Mr. Tripp Samoan Commissioners, stopped at Banff en route to Washington.

Michael Casson, an Adirondack hotel man, died at Saratoga Lake, N. Y., from injuries sustained in a runaway.

Thomas Houllhan, cashier of a Chicago packing house, shot and killed his wife and then committed suicide.

Emperor William notified a German veteran society in Chicago that he would present a flag to its members.

A well-dressed young man, known as W. E. Davis, is under arrest at Poughkeepsie, N. Y., accused of "horse stealing."

A historic old church at Evanston, Ill., sold for \$50, has been marked for conversion into a floating saloon and dance hall on a raft.

A United States marshal and a post-office inspector arrested Reuben Holden at Kingsville, O., for alleged unlawful use of the mails.

William Crowe fled ninety feet from the Big Four Railroad bridge in the Ohio River at Louisville, Ky., and was not injured.

A German officer who served under Admiral Von Diederichs at Manila denied at Chicago the reports of bad feeling between his chief and Dewey.

Chairman Dick, of the Ohio Republican Committee, said in Washington that a notable list of speakers would talk for Republicans in Ohio during the campaign.

Charles Jackson, sailor on a Manila transport, might, it is thought, will have to be sent back from San Francisco to Japan to be tried for an offense committed there.

William Strublin, discharged after twenty-eight years' service as a carpenter for the D. L. and W. Railroad, killed himself at his home, No. 62 Griffith street, Jersey City.

An explosion of escaped gas displaced the massive stone steps of the capitol at Hartford and fatally injured Watchman Cooper, who was looking for the leak with a candle.

W. C. Breckinridge, William Lindslay, W. H. Holt, W. P. Kimball, F. Watt Hardin and John W. Lewis were appointed Kentucky's delegates to the Chicago Anti-Trust Conference.

The New York-Arion Club has reached San Francisco.

Senator Beveridge, of Indiana, has reached Banff, N. W. T.

The training ship Annapolis has dropped anchor in Greenport (L. I.) harbor.

It is reported that \$3,000,000 in Klondike gold is yet to come from St. Michaels.

The Chicago trust conference has planned a special session to discuss relation of tariff to trusts.

Details of the wrecking of many steamers in the recent Australian storms reached Vancouver.

Doubt is cast at Seattle on the report of the bankruptcy of Alexander McDonald, the Klondike gold miner.

The Cleveland car blown up by strike sympathizers carried twenty-five passengers, none of whom was injured.

An enormous cargo of American locomotives and bridges left Philadelphia for Vladivostok, to be used on Chinese railways.

Gen. McArthur's troops had to march ten miles through mud and water to take Santa Rita, whose capture has been reported.

The deaths of Private John G. O. Yancy and Corporal Andrew Peterson, of the Eleventh Infantry, has been reported from San Juan.

The anti-Bryan Democratic conference in Saratoga was regarded in Washington as a move of more significance than hitherto considered.

James Bloodgood and Grace Cooper, of Anapolis, Neb., each fifteen years old, killed themselves with a pistol because their parents forbade their wedding.

An automobile gun carriage is reported under construction at Peoria, Ill.

A list of Japan's open ports under the new treaty was given in Washington.

Put Your Finger on Your Pulse

You feel the blood rushing along. But what kind of blood? That is the question. Is it pure blood or impure blood? If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

will do it. Take it a few days and then put your finger on your pulse again. You can feel the difference. It is stronger and your circulation better. Send for our book on Impure Blood. If you are bilious, take Ayer's Pills. They greatly aid the Sarsaparilla. They cure constipation also. Write to our Doctors. Write them freely all the particulars in your case. You will receive a prompt reply. Address, Dr. J. C. Ayer, Lowell, Mass.

A Cleveland non-union motorist shot and wounded a teamster who, he said, had called him "scab." After the shot, the teamster threw a hatchet at the motorist, cutting him.

Nathan Kronman, accused of murdering his wife in New York, has been admitted to bail in the sum of \$10,000. The coroner says there is no evidence pointing to the prisoner's guilt.

Manila, Aug. 15.—A reconnaissance by troops of General Samuel B. M. Young's brigade, with the object of recovering the whereabouts of the enemy, near San Mateo, northeast of the San Juan reservoir, about ten miles from Manila, resulted in the occupation of San Mateo. The American loss was three killed and thirteen wounded, including a lieutenant of the Twenty-first Infantry.
