MRS EDDY QUITS CONCORD

Moves Her Household to Brookline in a Special.

PHYSICIAN ABOARD.

Cause for Change Not Clearly Explained—One Reason Given is That She Wants to be Near Mother Church—New Home Purchased at a Cost of \$100,000.

Boston, Jan. 30.—Mrs. Mary Baker Eddy, founder of the Church of Christ Scientist, on Sunday suddenly changed her place of residence from Concord, N. H., to Brookline, suburb of Boston. In a special train which was preceded and followed by locomotives to avert any chance of accident, she made her journey, and she and her suite by night were installed in a large house of the Lawrence estate on Chestnut Hill Brookline. Mrs. Eddy was accompanied on the train by a homeopathic physician, Dr. Abner Baker Morrill, a distant relative.

Much mystery was made of the journey, and as much is being made

over the reason for it. Alfred Farrow, the Christian Science press agent, says she desires to be near the mother church in Boston. As it had been understood, however, that Mrs. Eddy had determined to spend her last days in solitude in the home, Pleasant View, she had chosen because of the association of early days, this explanation does not satisfy all inquirers. There are suggestions that her action has some bearing on lawsuits affecting her property.

Mrs. Eddy's new home is in a fashionable district. It was the residence of the late R. Ashton Lawrence. There has been much wonderment over its purchase and the work of improvement costing more than \$100,000, that has been going on for months.

THE CRAZE FOR TITLES.

Representative McGavin of Chicago Says Women Sacrifice Their Souls.

Washington, Jan. 30.—Declaring that the women concerned "sacrifice their souls and their honor on the altar of snobbery and vice," Representative Charles McGavin of Chicago took occasion in the House Tuesday to denounce the international marriage habit on the part of American heiresses.

"In thinking of these numerous weddings," he said, "I wondered what the early pioneers who battled with the Indians, challenged the forest, and braved the Winter's winds and snows to establish a Government where manhood might be recognized for its true value, instead of for the accident of birth, would say if from their graves they could look back and see so many of the women of this country sacrificing their souls and honor upon the altar of snobbery and vice."

AWFUL CREATURE WAS

NINETY FEET LONG

Recent Growsome Experience of a Chicago Man Is Sample of a Series of Such Cases

During T. T. Cooper's recent visit to Chicago, where his new preparation and theory created the usual sensation, many hundreds of people brought enormous internal parasites to the young man, which had left the system after taking his medicine.

Among these people was Mr. Emil Winkler, who brought to Cooper a tapeworm that proved to be over ninety feet in length. Mr. Winkler, who resides at 18 1/2 East Ohio Street, Chicago, had this to say of his experience: "For five years I have been more or less complaining. I have had severe headaches, and any food that I would eat would nauseate me. I would have had dreams almost every night; dizzy spells would compel me to quit work. Black spots would appear before my eyes when stooping over and rising quickly, I would feel tired most of the time; in fact, I had no life in me to speak of for the last five years. I tried various treatments, and one

physician in St. Louis was recommended to me, and I was under his treatment some time, but as usual I obtained no relief.

"So many people asked me to try Cooper's preparation that I decided to do so, and after using it for a few days, this awful thing passed from my system. I feel much better already, and I want to say right here that I thank Mr. Cooper a hundred times for what his medicine has done for me. I would not take \$5,000 and have that thing back in my system again."

Mr. Winkler is a fair sample of the experience of many during Cooper's stay in Chicago, and this no doubt helped to account for the enormous sale of the Cooper preparation in this city and others, recently visited by the young man.

We sell and will be pleased to explain the Cooper preparations. —F. W. Gorham.

De-lighted Is President Roosevelt with his

CROCKER FOUNTAIN PEN

"You Blow It to Fill It"

A Satisfied Customer BOSTON TRANSCRIPT Boston, Mass.

As to my Crocker Pen, I can only say that I am delighted with it, and its peculiar value was especially emphasized on the New England trip with President Roosevelt. It would have been a howling bother if I had been compelled to pump it full from a syringe every time the ink supply grew light, but having only to blow into the barrel, I could fill it without the slightest inconvenience. It is also very pleasing to find that the pen does not soil the fingers, a fault only too common in the old style pen, however satisfactory its writing qualities. All my reports of the President's trip, aside from some typewritten work, were written with the Crocker Pen, and I shall continue to use it in regular newspaper work.

Try it and you too will be delighted with the Crocker Fountain Pen.
