## The Paint That Lasts

# Bridgeport Standard Prepared Paint

It is the best paint for the moist climates along the coast, it wears remarkably well in the interior climates. In fact, it's the best paint anywhere and everywhere.

This shows how it stands each exposure:

March 14, 1909

"In an experience of nearly eighteen years I have found nothing to wear as well. My two cottages require painting very seldom. The paint never chips or blisters in spots, and when it fades it remains an even shade throughout. My neighbors using other makes have to renew their paint two or three times to my once. If I am not mistaken my house at York Cliffs, directly on the Ocean, has been overhauled but three times."

Lucy Brace Chittenden, Dyker Heights, Brooklyn, N. Y.

## Bridgeport Standard Prepared Paint

"the Paint that Lasts"

It is the most economical because it goes farthest. It has a good body - will not crack, crack or peel off. All this means economy and satisfaction.

Select your colors from our color card, have a practical painter do the work and there will be no after regrets. Your painter will like the wearing qualities and practical features of our paint.
