TAMMANY'S REVENGE.

A VIGOROUS KICK FROM THE KELLY MEN.

Uniting With the Republicans They Elect Johnson Clerk—Lieut.-Gov. Hoskins to Appoint the Senate Committee.

(Special Dispatch to the News.)

ALBANY, Feb. 15.—Disappointed and indignant at the treatment they have received at the hands of Speaker Patterson, whose election was brought about by their concessions, the Tammany representatives to day made their power felt by uniting with the Republicans and voting for the resolution to put the naming of the Senate Committees in the hands of the Lieutenant Governor. The resolution was carried and Mr. Hoskins will appoint the committees. It is needless to say that the Lieutenant-Governor will make such a disposition of the honors as will give Tammany due recognition.

The Tammany Assemblymen united with the Republicans and cast the necessary votes to elect Edwin M. Johnson, the Republican caucus nominee, Clerk of the Assembly. There is no language too strong for the Tammany men to use in the denunciation of the Speaker. They accuse him of downright double dealing and misrepresentation in the conference which led to his election, and claim that he has broken all the pledges which they insist that he made. They consider that they have been openly insulted by the composition of the Committees.

The action of Tammany to day has caused much excitement and high words have been frequently used. Even the exciting scenes of last Summer's dead-lock were no more animated than those that have been witnessed here to-day.

Attica Items.

Invitations have been received in town to attend the ball of the Arcade Engine company, No 1, at Keystone Hall in that village on the 17th. Doubtless many of our young people will attend.

Two Erie freight cars attached to the Tonawanda Valley train were thrown from the track and into the ditch about a mile south of Attica last Saturday. The baggage-car was also derailed. The wreck delayed the train about four hours.

Mrs. Wallie Blakeley gave a very enjoyable tea party at the Wyoming Saturday to about thirty of her lady friends. The affair was very entertaining, as are all such events gotten up by Mrs. Blakeley.

The enjoyment at the sociable given at the Union School house on Friday evening was marred by the disgraceful conduct of two loafers, Pat Conway and Wm. Eighthy. They raised a disturbance and endeavored to pick a row with the students. They were arrested and each fined \$10 for their amusement. They deserved even greater punishment.

Indian Lands to be Sold.

The House Committee on Indian Affairs has decided to report favorably the bill for the sale of certain New York Indian lands in Kansas. In 1860 certificates of allotment for 320 acres of land each were issued to 32 New York Indians, the land being located in Kansas. A good part of this land having been occupied and improved by bona fide settlers, the object of the bill is to enable them to purchase it in tracts of not more than 160 acres at not less than \$3 per acre, and to provide for the sale of the lands at public sale if not so purchased within a year, the proceeds to be paid to the Indians upon satisfactory proof of their identity.

The question of healthfulness regarding the Baking Powder we use, is an important one. The result of a pure and healthy article is more satisfactory, although it may not be as profitable to the manufacturer. You can try "Good Luck" Baking Powder with the assurance that it contains no deleterious substance, and for the result, economy, &c., you can soon decide for yourself. Manufactured by

SAFE BLOWERS AT WORK.

Two Unsuccessful Attempts to Gain Booty.

When John Leonard, an employee of the firm of Russell & Hazard, the produce dealers on Jackson street, went to the office this morning, he found the place in a state of confusion. A pane of glass in the south corner window had been broken, through which some person had inserted his hand, sprung the latch, and by lifting the window gained an entrance. It was evident that burglars had been at work. On the desk over the safe lay a paper containing several ounces of powder, and a hole about a third of an inch in diameter had been drilled in the door of the safe just below the handle. The powder had not been used and appearances indicated that as the safe door was not solid, the quantity of powder was found insufficient to fill the hole, and the burglar had given up the job. The imprints of a man's boot heel were to be seen on the baseboard of the wall where it had been braced when the burglar was using the drill. Another paper similar to the one in which the powder was wrapped, was found near by. It had apparently been used to figure out the combination, and on it was written the name of "Chas. Calhoun, East Cleveland, Ohio."

Frank Johnson, who works for A. C. Olmsted, the coal dealer found the office on Center street in the utmost confusion when he went to it this morning. Both the east and west windows were open. The signs of burglars were numerous. The blinds which guard the windows on the South side had been torn from their hinge and were scattered on the ground. The window had been pried open and through it the burglar or burglars had entered. Two attempts had been made to drill a hole in the safe, but neither were successful, and the depredators left without gaining any booty. No clue to the burglars has been obtained.

A Narrow Escape.

Yesterday afternoon a drover came as near meeting his death by the cars as man ever did and escaped. He was at the Central depot and was watching the Canandaigua train upon which he had several cars of stock. The Atlantic express approached rapidly from the west unnoticed by him, and he stepped on to the side of the track directly in front of the locomotive. He was knocked down upon the track and rolled over several times by the pilot, when another drover, seeing his perilous situation, grasped him by the coat and rescued him. The man was not much hurt. The accident was watched by several spectators who were thrilled with horror, expecting that it was a case of sure death.

Dissolution of Co-partnership.

The firm of McKenzie & Pendill, dealers in clothing, was yesterday dissolved by mutual consent, Mr. Pendill disposing of his interest and retiring. Mr. John Ryan and Mr. John C. Storms have purchased a share in the concern and associated themselves with Mr. McKenzie. The best wishes of all are extended to the new firm. Mr. Pendill has not yet decided in what business he will engage.

An Important Reference Suit.

The suit of the First National Bank of Batavia against Ege & Otis, prominent commission merchants of New York, is in progress at the office of Hon. George Bowen to-day before the referee Judge James L. Angie of Rochester. The action is brought to recover for the conversion of about \$5000 worth of produce shipped to the defendants in 1880 by F. C. Williams. Ege & Otis held the amount, claiming that Williams is indebted to them. The First National Bank advanced the money upon drafts which were attached to the bills of lading, and which Ege & Otis failed to honor. The case for the prosecution is conducted by Hon. George Bowen and M. H. Peck. The defendants are represented by Henry A. Childs of Medina.

Vennor's Predictions.

Vennor predicts for the close of the present week storms of great severity from Toronto westward to Chicago, Milwaukee and other points in Illinois, Wisconsin, Iowa and adjacent States. In St. Lawrence Valley, below Kingston, the same storms, but less severe, may extend to Montreal and Quebec, while in a southerly direction snow, sleet and rain is likely to extend to Washington. There are likely to be serious blockades of snow in the Western sections, and possibly in the Northern and Middle States. Should these storms be well marked in the sections mentioned, Vennor is of the opinion that March will enter exceedingly rough and with heavy snowfalls from St. Lawrence to very Southern points.
