

Election Returns.

Well, election is over, and Lincoln is probably elected to the Presidency.

NORTH DANVILLE.

Republican 885, Union 412. Governor. Kelly 422.

Avon 117, Conesus 147, Caledonia 60, East Sparta 24, Geneseo 124, Groveland 10, Livonia 292, Lima 110, Leicester 38, Mt. Morris 22, Nunda 182, Ossian 17, Portage 110, Springwater 339.

Fusion maj.—North Danville 27. The Counties in this State as far as heard from, give the following majorities for Lincoln:

Livingston about 2000, Monroe 3500, Erie 814, Geneseo 2000, St. Lawrence 11 towns and one district 7000, Madison 3333, Jefferson 2557, Herkimer 1286, Clinton 700, Oswego 3635, Franklin 700, Oneida 3544, Allegany probably 4000.

Connecticut—10,000 Rep. majority. Missouri—Probably carried by Douglas.

Ohio—The Republican majority will probably exceed 80,000.

Illinois—The Republicans claim the Legislature and State by 15,000. Lincoln's official in Chicago 3092, a gain of over 2000 since 1856.

Iowa—Returns come in slowly, show Republican gains, and indicate the success of that ticket. In Dubuque City, Douglas has 86 majority.

Pennsylvania—Probably about 45,000 Republican majority.

New Hampshire—Lincoln's plurality will reach 10,000.

Maine—Returns not full, but Lincoln's majority probably 25,000.

Kentucky—Given to Bell by 10,000 or 15,000.

Louisiana—Private dispatches say has gone for Breckenridge.

Returns from points below Tennessee, show Douglas to be quite feeble. States south of Tennessee probably all gone for Breckenridge.

Michigan—22,000 Republican.

Rhode Island—Lincoln 12078, Douglas 7685.

Massachusetts—Lincoln 104,467, Douglas 8,407, Bell 22,017, Breckenridge 6,070.

Maryland—Probably Bell.

New York—40,000.

GODEY FOR DECEMBER.—We wish every one of our readers took Godey's Lady's Book—they ought to—and then they could realize the pleasure which we feel upon its monthly receipt.

The December number of this splendid magazine out does itself. It commences with two magnificent steel plate engravings, "Christmas in the Country," and "Christmas in the City," followed by their unusual number of fashion plates, among which we notice one of the finest we ever saw—double page colored engraving, "Brides and Bridesmaids," some additional winter scenes, the Christmas Tree, &c. A fine collection of original articles by the first writers of the country.

Only \$3 per annum, or three copies for \$6. Address L. A. Godey, 223 Chestnut street, Philadelphia. We will send Godey's Lady's Book and the Dansville Advertiser one year for \$3.

Inducements to Agents.

The very low price at which our paper is afforded, will enable almost any one to obtain subscribers, and as an inducement to persons to interest themselves in our behalf, we make the following very liberal offers:—

To any one who will send us five subscribers and \$5, we will mail THE ADVERTISER one year free of charge; for ten subscribers and \$10, we will give a premium of \$2 worth of any books which may be selected; for twenty subscribers and \$20, we offer \$5 worth of Books and THE ADVERTISER for one year; for fifty subscribers and \$50, we will give \$15 worth of books and THE ADVERTISER for two years. Club prices, (invariably in advance) ten copies for one year, \$8; twenty copies and over, 75 cents each, and one to the getter up of the club. Will each of our subscribers ask his neighbor to take THE ADVERTISER? It is by far the cheapest paper in Western New York.

It is proposed in New Orleans to erect a monument to Gen. Wm. Walker.

The Israelites in New York, it is said, are wonderfully increasing. They have no fewer than forty synagogues, and demand is for more.

The falling off of the hog crop in Kentucky, this year, is some 450,000. This loss will be about four and a half millions of dollars.

Upwards of one thousand troops are soon to be sent to California and Texas.

The treasury receipts for the first quarter of the present fiscal year, commencing with July, amount to \$18,000,000. The receipts during the past week add up to \$70,000. The amount subject of draft is 4,198,000.

A German journal says that there are now in practice 3,254 homoeopathic physicians.—Of these, there are 1,012 in America, 568 in Germany, 408 in France, 24 in England, 94 in Spain, 26 in Belgium, 7 in Holland, 41 in Italy, 34 in Switzerland, 67 in Russia, 17 in Portugal, 4 in Asia, and 9 in Africa.

The total population of Russia is 79,000,000. The lower orders, serfs, petty traders, and artisans form a total of 53,600,000; and the nobles and the higher grade of traders about 1,000,000. The nobles still possess 31,000,000 of serfs. The population of Siberia, including the wandering tribes of Kasan, Astrakhan, and Oranburg, is 4,000,000.

A book canvasser states, on calling upon a man to purchase a book, he was told that he would be glad to have the book, but that he had a book already; and the idea of having two books seemed preposterous; that if he would buy the old book he would trade.

A few statistics have lately appeared in a French exchange relative to the circulation of Parisian journals. Their issues are given as follows: "Press," 47,000; "Siecle," 83,000; "Constitutionnel," 25,000; "Pays," 17,600; "Debat," about 4,000; "Assemblee Nationale," about 4,000; "Gazette de France," about 2,000. The statistician says that, notwithstanding the many periodicals which the government has stopped the circulation of, there are more newspapers and magazines in France at the present time than there were before the Emperor Napoleon III. ascended the throne.

The United States Vice Consul at Copenhagen, Denmark, furnishes the gratifying intelligence that an "official package" from Dr. Hayes, commander of the Arctic Expedition, had been received by one of the Royal Greenland Company's vessels from Upernavik. This assures the friends of the expedition of the prompt arrival of Dr. Hayes at the port nearest the field of his labor.

The next European mail may bring letters from the Arctic voyagers. Dr. Hayes promised his friends that they should hear from him about the first of November. That promise has been fulfilled.

A young lady in St. Paul rose from her bed a few nights since to make an application of camphor to her throbbing temples. By mistake she got hold of a bottle of indelible ink. The error was not discovered in time to prevent a most damaging effect to the fair one's personal appearance.

The census just taken shows a gain of fifty per cent. in the population of Wisconsin during the past five years. The state has now about 780,000 inhabitants.

The census figures in Michigan make the increase of population in the state since the census of 1850, 352,815. The increase since the State census of 1854 has been 240,595.

The undertaker of Roxbury, last week, exhumed the remains of the father and grandmother of the Revolutionary patriot, Gen. Joseph Warren. They were taken from the old burial ground on Eustice street, and are to be carried to Forest Hill Cemetery, for re-interment. The thigh-bone and one of the teeth of the father of General Warren were the only portion of the remains preserved entire.

It is said the hay crop in this State this year is worth \$4,000,000.

Vermont, according to the census returns, has receded 5000 in population.

A man named Stebbins, baggage master on the New Haven R. R., is under arrest for the robbery, in April last, of Adams Express, of money and drafts to the amount of \$16,000, and confesses the crime.

An old brass cannon, cast in 1680, and taken from the wreck of a Spanish vessel, has been sent from New London to Troy, N. Y., to be cast into a bell. Upon the principle of beating swords into pruning hooks, the cannon which thundered vengeance and hurled balls in the defence of Spain, nearly two hundred years ago, will soon be calling the people of New London to the Sabbath sanctuary.

ROCHESTER EXPRESS.—We would call the attention of our readers to the prospectus of this valuable sheet, published in another column. It is comparatively a new paper, but has already become one of the most popular in Western New York. The Daily Express is one of the most ably conducted and liveliest papers in the State, and it is certainly the cheapest. Only \$4 per annum for a daily paper! It is published every afternoon, and all of our subscribers in this section and on near the line of the R. R. between Corning and Rochester, can get it the same evening or the next morning.—Try it one year.

RARE EDITORIAL WINDFALL.—The venerable Nathaniel Willis, says the Boston Transcript, who was for many years editor of the Boston Recorder, has recently received a very pleasing letter from an old subscriber, inclosing \$30—the principal and interest of three years' subscription to his paper, due twenty three years ago! Were this example generally followed, many a veteran printer's old age would be cheered by the reception of money which has been due so long that the debt has passed from their memory.

FRIENDS: I have visited Kansas and I tell you that its poor people are starving and need your immediate aid.

Kansas is now thoroughly organized to receive relief through County and Township Committees of the people's own choosing, and Gen. S. C. Pomeroy, at Atchison, Kansas, is in daily correspondence with these Committees, and is sending them all the relief he can. He writes me under date of 20th October, as follows: "The East need not buy a bushel of grain. The Western States will give it, if the sacks and freight can be paid for!"

Judge Arny is soliciting food in Illinois and other Western States. Both these gentlemen are exerting themselves to the utmost to save a starving people, and they write me the most beseeching and affecting letters.—Car loads of provisions are daily arriving at Atchison, but my friends have no money to pay freights.

Judge Arny, under date of Oct. 20, says: "We have used up our means and our credit to buy sacks and pay freights; please move in the matter, and relieve us as soon as you can."

Christian friends, I am into this business now some \$1,500, and your help is needed. These good men, Pomeroy and Arny, ought not to be left to struggle with their need. Will you aid us, or must the poor people in Kansas perish?

I would prefer that no money be sent to me. Send it direct to S. C. Pomeroy, Atchison, Kansas; not in bills, but in drafts to his order; or remit to this place to Amos A. Lawrence, Dr. S. G. Howe, or the Hon. S. E. Sewell. These gentlemen are all well known to the country, and the friends of Kansas need have no anxiety as to their contributions. Kansas is now organized by the people themselves in their townships and counties, and this time without the intervention of selfish spoilsmen and heartless politicians, and I here and now appeal

TO THE PRESS OF THE COUNTRY, To let their readers know the fact that a dreadful famine exists in Kansas, and that a way as indicated above, is opened to get relief to the suffering. Three things are wanted:

1. Cash. 2. Boots and shoes (ready made), especially for women and children. 3. Cotton cloth suitable for meal sacks; also cloth of all kinds, to be made into clothing. The poor people are badly in need of clothes; but old garments don't pay to send—freights are too heavy. Send only new cloth, fit to be made into garments.

THADDEUS HYATT, In behalf of 30,000 starving Americans. Boston, Nov. 5, 1860.

WHAT CONSTITUTES A "GOOD" EDITOR.—The editor of the Alexandria Gazette gives expression to a truism that should be read and pondered over by his brethren of every locality. Notwithstanding that the great bulk of the Press of the Union is conducted with a degree of tact and ability that is remarkable, yet too many are managed on the "verbose" principle; and, for the special benefit of those whom the "shoe pinches," we reprint his Franklin-like hints in the most conspicuous column of the present issue.—Many people estimate the ability of a newspaper and the industry and talents of its editor by the quantity of editorial matter which it contains. It is comparatively an easy task for a frothy writer to pour out daily columns of words—words, upon any and all subjects. His ideas may flow in one weak, washy, everlasting flood, and his command of language may enable him to string them together like bunches of onions, and yet his paper may be a meager and poor concern. But what is the labor and toil of such a man, who displays his 'loaded matter' never so largely, to that imposed on the judicious, well-informed editor, who exercises his vocation with an hourly consciousness of responsibilities and devotes himself to the conduct of his paper with the same care and assiduity that a sensible lawyer bestows on a suit, or a humane physician upon a patient, without regard to show or display? Indeed, the mere writing part of editing a paper is but a small portion of the work. The care is the time employed in selecting far more important matter, and the fact of a good editor is better shown by his selections than anything else, and that we know is half the battle. But, as we have said; an editor ought to be estimated, and his labors understood and appreciated, by the general conduct of his paper—its tone—its temper—its uniform, consistent course—its principles—its aims—its manliness—its dignity—its propriety. To preserve those which they should be preserved is enough to occupy fully the time and attention of any man. If to this be added the general supervision of the newspaper establishment, which most editors have to encounter, the wonder is how they can find time or room to write at all!"

RAILROAD BUSINESS.—The N. Y. Evening Post says: "the earnings of the New York Central this month will largely run beyond those of October, 1859, and the Michigan roads, with the Great Western of Canada and Lake Shore Roads, have engagements ahead for their entire freight capacity the coming month. The prospects of dividends from these properties adds to the insecurity of holding them in Wall street, and the prices will soon touch fingers which tempt outside parties."

COTTON GOING A NEW WAY.—The Illinois Central Railroad has concluded a contract to take two thousand bales of compressed cotton from Cairo to the East by rail, and is in treaty for a much larger amount. The Chicago Times stated that two hundred bales have arrived, and been forwarded by rail from that city eastward. The cotton is taken at a low figure, as back freight, upon carrying grain to Cairo.

J. BROWN, OF THE

Rochester Clothing Store

HAS JUST RECEIVED A LARGE STOCK OF READY-MADE CLOTHING,

SYRACUSE MEDICAL DISPENSARY, ESTABLISHED IN 1850.

For the relief of the misguided and un- prudent victims of the "Maine blood" who find that he has labored the seeds of a certain loathsome disease, is from an ill-timed sense of shame deterred from applying to a physician whose knowledge and experience can alone befriend him in distress.

Persons calling, see no one but the Doctor. In view of the vast destruction of human life, caused by the unscientific treatment of venereal disease, we deem it our duty to suffering humanity to extend our notice of having attached to our Institution a Dispensary for the cure of all diseases of a Venereal character.

The Faculty of this Institution embraces the best Medical talent in the reform school of Medicine, and the physician who superintends this department has no less than twenty years of successful experience in the treatment of venereal disease. No matter what your disease may be, or of how long standing, we guarantee a perfect cure in all cases by remedies which contain no mineral or poisonous drugs, require no very strict change of diet, and we also guarantee to cure you at very low prices, much less than that usually charged.

Among the diseases successfully treated are: Scrofula, Ulcers, Erysipelas, and all diseases peculiar to Females; Leucorrhoea or Whites, Suppression of the Menes, Painful Menstruation, Inflammation and Ulceration of the Uterus or Womb, and the falling of the Womb, treated on scientific principles.

All diseases of the Organs of Generation, in both sexes, treated in a careful, thorough and judicious manner, pointed out by long experience and investigation.

Low prices and quick cures. Recent cases cured in from three to eight days. All venereal and mercurial taints entirely removed from the system.

TO YOUNG MEN! We also pledge ourselves to entirely remove the effects of Secret Habits, Seminal Weakness, &c., by simple local applications easy to use, causing no pain or inconvenience. Address by mail as below, or apply to Dr. C. S. GOFF, Consulting Physician of the Institution. Office No. 100 Wicketing Hall, (opposite the Syracuse House), Syracuse, N. Y.

NOTICE TO ALL! Persons at a distance cured at home by writing a letter, giving a full statement of their symptoms, and enclosing \$5, for which their medicine will be sent by Express, received from danger or observation, with full and explicit directions for use.

IMPORTANT TO LADIES. Golden Female Pills.—One of the best medicines for Obstructions, &c., ever used, warranted to produce the desired effect if used according to directions. Price of Powder \$2 per package. Send by mail to any address.

Female Pills. It is perfectly safe, and never fails to give satisfaction. It is the only safe and sure preventive against pregnancy and disease. The price of the French Patent Pills \$1 the Single one, or \$5 per dozen. Sent by mail.

JUST PUBLISHED.—Two Books in One! ON PRIVATE DISEASES AND DISEASES OF FEMALES. Containing the true method of curing all diseases mentioned in this advertisement. Also reliable advice in relation to marriage, Conception, and the means by which it may be avoided, if necessary; and other matters of vital importance to the married and those contemplating marriage. The knowledge contained therein is not to be found in any other work ever published, nor obtainable from any other source whatever. Price 25 cents. Sent to any address on receipt of price, or its value in stamps.

French Patent Pills. It is perfectly safe, and never fails to give satisfaction. It is the only safe and sure preventive against pregnancy and disease. The price of the French Patent Pills \$1 the Single one, or \$5 per dozen. Sent by mail.

THE GOOD SAMARITAN, HOT-AIR DRAUGHT, LARGE VENTILATED OVEN, COOKING STOVE FOR WOOD OR COAL.

THE GOOD SAMARITAN Is the best finished and most durable Stove of the day. Combines every advantage for Cooking ever applied to a Stove.

THE GOOD SAMARITAN Bakes perfectly on Top and in the Oven, and Roasts in Front at the same time, without impairing the flavor of one kind of food to another.

THE VENTILATED OVEN By the constant admission of pure fresh air, always insures sweetness to the food being baked.

THE HOT-AIR DRAUGHT Raises the temperature of the Fire Box, and increases the heating power of the Stove, thus enabling the Good Samaritan to do more work in any variety of cooking, with less Fuel, than any Stove in the World.

THE GOOD SAMARITAN Has the most perfect arrangement for Browning on the Front Hearth, without interfering with the other operations of Cooking.

THE GOOD SAMARITAN Has a constant supply of Hot Water without cost, and heats Water for the Bathing Room superior to any Range.

THE GOOD SAMARITAN Is in every respect worthy of its name. COME AND SEE IT.

For Reference we give the following names of gentlemen who have used them, as to the good qualities of the Good Samaritan Cooking Stove. DANVILLE.
