

## THE EEL WEIRS PROHIBITED

Governor Dix Vetoes Bill Permitting Eel Weirs.

### IN DELAWARE RIVER

Many People Thereby Will Be Deprived of the Best and Most Abundant Fish Food in the Delaware River.

Governor Dix vetoed, Wednesday, the bill permitting eel weirs in the Delaware river. The State Forest, Fish and Game Commission opposed the bill in a letter to the Governor, saying:

"The Delaware River is one of the best bass rivers in the State of New York. The chief menace to the supply of this and other game fish is the eel weir. The Commissioner of Fisheries of Pennsylvania has written this Commission stating that he hopes the bill will not pass the New York Legislature for the reason that a bill has been introduced in the Pennsylvania Legislature to abolish eel weirs, and there is every indication that it will pass. New Jersey and Pennsylvania jointly forbid fish baskets in the Delaware River below Port Jervis, and if a bill were introduced into our Legislature to permit fish baskets in the Delaware River above Port Jervis I should have to oppose it."

The good Governor and the gentlemen of the Forest, Fish and Game Commission are evidently not aware of the excellent food quality of the Delaware River silver eel. The "Old Settler," and his name is legion, whose principal fish food is the luscious eel caught in the fall of the year in the river and dark nights, will not have hereafter a warm affection for the authority that robs them of the much appreciated eel.

These old fishermen say that the highly protected black bass eat the little fish and on the other hand eel weirs, properly constructed with the proper interstices between the laths let the little fish pass through into the river.

Under this new law hundreds of thousands of eels will pass down the river every fall unmolested and many thousands of pounds of the choicest food will be lost by the people residing on or adjacent to the Delaware river.

## WOMAN WHIPPED BEAR; UPSET HER PAN OF MILK

Kingston, June 5.—A black mountain bear had an adventure in the neighborhood of DeWittville a few days ago that will make it remember a broomstick. The occurrence shows how fierce and, when attacked, what terrible fighters the Catskill mountain bears are.

Mrs. Silas Meisner, the wife of a farmer, left several pans of milk on her kitchen table while she went on an errand to the upper part of the house. She heard a tin pan fall and hurried down stairs and found a good sized mountain bear lapping the milk up from the kitchen floor. She had no weapon and as the bear stopped lapping milk and looked up at her as

she entered, she expected the brute to attack her, but after surveying her it went on lapping the milk.

Looking around for a weapon she seized an old broomstick and began to belabor the bear over the head. Mr. Bear stopped his meal of milk and looked surprised, turned tail and made for the door. The plucky woman followed it and kept belaboring it with the stick until it went over the fence and ran down the road. When Mrs. Meisner was asked why her husband did not follow the bear tracks and kill it, she answered briefly:

"Bear meat is not good this time of year."

### AUTO RUNS INTO STONE WALL.

No One Seriously Hurt, But the Auto Was Smashed.

A five-passenger E. M. F. automobile, occupied by A. M. Armstrong and Mr. Young, of the town of Woodbury, went into a stone wall the other side of Gen. Henry L. Burnett's place, on the Chester state road, shortly after 11 o'clock, Thursday night. At the point where the accident happened there is a sharp turn in the road. Instead of turning, the car ran straight ahead and landed into the stone wall.

Mr. Young was taken to his home by Dr. Hamilton and Mr. Armstrong returned to Goshen and remained at the St. Elmo Hotel over night. Friday morning he returned to his home in an automobile. Neither man was seriously injured, but the car was badly damaged. S. C. Wood, of Goshen, went to the scene Friday morning and had the car towed to his garage in Goshen, to be repaired.

### A Child in Error.

A little boy in France had a Bible to give his mother on her birthday. He knew that an inscription ought to be written on the fly leaf, but did not know what to write. So he took down a book from the library shelves to find a model. What he copied on the fly leaf was, "With the kind regards of the author."

## What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and tested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. ### CHANGES IN AUTOMOBILE ACT.

Registration Fees for Season Lower After August 1st, 1911.

Albany, June 9.—The Senate today has passed Senator White's bill amending the Callan automobile law in relation to fees paid for the registration of machines and for chauffeurs' licenses. One of the amendments reduces by one-half the annual fee for automobiles registered after August 1st. Another exempts from the registration fee automobiles owned or controlled by the State or by any city or county.

The bill also provides that the Secretary of State may refuse to issue or renew a chauffeur's license if he deems the applicant is unqualified, but such refusal may be reviewed by writ of certiorari. The charge for the renewal of a chauffeur's license is reduced from \$5 to \$3.

### WAR MADE HIM WRITE LETTERS.

Veteran Explains Habit of Writing Offensive Communication.

Newton, N. J., June 9.—William H. Rochelle, blaming his habit of letter writing on his experiences in the Civil War, Friday, pleaded for leniency before Judge Martin, by whom he was tried on charges of writing annoying communications to several persons. He has been in the county jail undergoing an examination of his sanity. When he first was arrested it seemed reasonable insanity would explain his letter writing. He said Friday he acquired the habit when in the war.

Rochelle was arrested on the same charge last fall. He was sentenced to serve eighteen months, but was released. When he was arraigned last Friday, the Judge said if he was found to be sane the original sentence should stand.

## TEACHER TRAINING CLASS

To be Maintained at State Expense at Goshen High School.

### WILL EMPLOY SPECIAL TEACHER

A Special Library of Works Will be Secured From the State Department of Education.

The Goshen Democrat says that the Board of Education of Goshen has just received word from the State Education Department that the Goshen High School has been selected by their inspectors as one of the institutions in which the state will maintain a teachers' training class for next year. The appointment was made after a thorough examination of the condition of the school and the facilities for giving the required courses of instruction, and should be a cause of pleasure to all who are interested in the growth and development of our school system.

The cost of maintaining the class will be borne entirely by the state. A special teacher will be employed for the work and a special library of works on education will be secured from the State Department. The course for those who are qualified to enter the work without conditions, will require one year to complete, and upon the successful completion of the work the student will be granted a teacher's certificate which is good, upon renewal, for life.

Orange county is an "excellent field for work in the rural schools, as the number of teachers is never equal to the demand. Many of the country schools pay their teachers \$15 a week and this ought to be an inducement to girls who wish to enter upon some line of work to prepare for teaching.

The number of members of the class will be limited, and all those who are interested in the course should apply at once to the principal, stating their educational qualifications. Full particulars may be obtained upon application.

### TO STOP VOTING WITH MACHINES.

Assemblyman Levy Introduces Bill to Do Away With Them.

Albany, June 8.—The use of voting machines at elections will be stopped if Assemblyman Levy succeeds in passing his administration election reform bill.

"I believe there should be a uniform system of voting in the state," said Levy today, "and the system in use by the majority should prevail. The bill does away with voting machines in order to accomplish several wholesome reforms which cannot be secured with the machines." The bill is now before the Assembly and will come up for passage next week.

### Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarraparilla. The weak, run-down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abounding. We are glad to say these words in its favor to the readers of our columns.

### JERSEY LIQUOR ACT LOST.

Unsigned James Bill Disappears From Executive Office.

Trenton, N. J., June 9.—The state capitol is being turned upside down in a search for the James liquor bill, which permits a dealer in one town to sell in another without taking out an additional license.

Clerk Daniel A. Dugan has the receipt of Chairman Davidson of the passed bills' committee for the measure. Davidson sent it to the executive mansion, it is claimed, and with it his book of receipts, which is also missing. Governor Wilson put off action on the bill until his return from his western trip. When he did return and wished to act on the measure it could not be found.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by All Dealers.
