

# MYSTERY IN HOTEL POISONING CASE

At First Thought Ice Cream Was Responsible But Some Didn't Partake.

## SERIOUS RESULTS AVERTED

Serious Results Might Have Followed if Physicians Had Not Been at Hand to Help the 49 People Affected.

On Sunday afternoon 45 boarders and 9 employes at the boarding house of John Brinning, Jr., at Lake Huntington, were taken violently sick and visiting doctors at the lake were called immediately, while Drs. Gain and DePasse, of Jeffersonville, were sent for. Medicinal concoctions were administered and immediate relief given the sufferers, which accounts for the most of them being alive at the present time.

One lady, a Mrs. Mars, is still very ill and suffering from the effects of the poisoning.

It is said that the poisoning was caused by eating peach ice-cream which was served with lunch, but that does not seem to be the case, as there were two boarders who were stricken and who did not eat any of the ice-cream.

Monday morning all the people who were poisoned were able to be out again, with one exception.

Mr. Brinning's house is one of the most popular places at the lake and it is unfortunate that such a thing should occur, especially at this time when the season is just commencing, although Mr. Brinning will not suffer from lack of patronage on that account as it is one of those things which are likely to happen anywhere and are unavoidable.—Calliecon Democrat.

## MONTICELLO MAN COMPLAINS.

Frank H. Osborn Appeals to Public Service Commission in Power Matter.

Alleged discrimination in the furnishing of electric service by the Murray Electric Light and Power Company in Monticello, is complained of to the Public Service Commission, Second District, by Frank H. Osborn. He claims that his repeated applications to the company for current for his garage to operate his vulcanizing plant and other machinery have not been acted upon, while for some time past the company has supplied service to two other garages in Monticello. Last year it is stated the company wired complainant's garage, but has since that time refused to supply him with energy, notwithstanding his willingness to bear part of the cost of connecting with the company's power line.

This complaint has been served upon the company and an answer will be filed within 20 days.

He was taken to Middletown by Ralph Towner, who was near when the accident happened.

## FARLEY PRAISES ERIE.

Expresses Appreciation of Courtesy and Politeness of Employes.

The Erie Magazine says: The following letter from His Eminence, Cardinal Farley, written from his residence, No. 452 Madison Avenue, New York City, and addressed to President Underwood of the Erie Railroad Company, is printed as an inspiration to all Erie Railroad employes.

It is greatly appreciated, as coming from so good and popular a man as Cardinal Farley, and the praise it bestows belongs to a class of employes, proverbial for their politeness and courtesy at all times to the patrons of the Erie Railroad:

June 13th 1912.

Mr. F. D. Underwood, President Erie Railroad, 50 Church Street.

My Dear Mr. Underwood.—I wish to express to you my deep appreciation of all the courtesies extended to me and my party on the occasion of our recent visit to the city of Buffalo over the Erie Railroad. Nothing was left undone to make that journey a most comfortable and memorable one in every way. From the polite and gentlemanly treatment on the part of the various division superintendents down to the attentive and efficient service of the dining car attendants, there was the greatest kindness and consideration. I would make special mention of the conductor, Mr. Thos. F. Ryan.

Thanking you most cordially in my own name and in that of the other gentlemen who accompanied me, and wishing you every success and blessing, I am,

Very faithfully yours,  
(Signed) JOHN CARD. FARLEY,  
Archbishop of New York.

## Direct Service Between Here and Newburgh Possible Improvement.

Newburgh, July 12.—Improvements are going on at the Erie station. The old platform is torn up and a new one is to be constructed of concrete. Some day the Erie will build a fine depot at Newburgh where the traffic is constantly increasing and becoming more important. Among the possible improvements for travel there is under contemplation a plan to run trains from Newburgh direct to Goshen, Middletown and Port Jervis without changing cars. This cuts out the present nuisance.

## Umbrella Mender Killed.

Hornell, N. Y., July 14.—The lifeless body of William Morgan, an umbrella mender, 35 years old, of Cleveland, O., was found lying beside the Erie tracks in the west end yards shortly before 2 o'clock this morning by members of the switching crew.
