Agents of a paper for November by L. Lum Smith, is exposing the tricks of news or publishers very much to their shame. It proves that any publisher who will represent his credit is more than it is (which nearly all do) for the sake of obtaining advertisements, he sacrifices money fraudulently.

Mr. Smith is doing a good work and our own state, as that of Pennsylvania, should legislate in reference to it, and establish schools, so that shall protect the public. It may seem queer that the NEAPOLITAN can advocate such a law, but it will protect us, we give the papers actually sent out every week, and in all the years of its publication, we have found it best to give the exact figures, although we have suffered from the lies given by journals around us.

Some improvements going on in our village.

Our district schools are mostly taken for the winter.

More apples are being secured this year than was first thought.

Some sickness in town; the measles being quite prevalent; some fever, etc.

Some births in this town but as they all will do so in all places there is no particularizing.

What is growing nice and we need much more rain for many streams are yet dry and wells and springs are low.

Auctions are frequent this fall; Bradstreet, Havelhill, and Edson Randall of Bloomfield are on the first of the week.

Saw a hop buyer riding by; have not heard as he purchased any. The most of the growers want twenty-five cents per pound.

Business about the same as usual. Our stores have a good stock of goods on hand and yet many go to Canandaigua and even Rochester to trade.

The idea of November are close at hand and politicians are office seekers are active. The people will be wise if they will only put their seal of condemnation upon all seekers and vote only for such men as are known to be true and tried.

Married on the 23 of Oct., at Oberlin, Ohio, George B. Mallory and Julia Walker. They are now visiting at the home of the groom's parents, Dr. Mallory, for a few weeks when they will return to their residence in Dickinson Co., Kansas.

Thomas Warner's steam saw mill was discovered on fire Tuesday at 10 30 p. m. It was soon consumed with a dry house and a tenant house occupied by B. Roeker. Some logs and lumber were burned but with effort that amount was comparatively small. The loss on the mill was \$2000, no insurance. Logs and lumber \$400 00, the logs were fully insured; no insurance on the lumber. Loss on tenant house \$300.00 no insurance. Mr. Warner is to immediately build a planing mill and has ordered a car load of lumber so as to keep the men at work on the hotel.

Cobcocton's Business Places, Churches, Etc. HILL STREET.

We commence back of the new hotel now being built by Thomas Warner which takes up the corner of Main and Hill streets.

The first building was built by John Gehrig in 1882 who has since occupied part of it as a shoe shop. It is also rented to Willard Robinson and the other part of the new house was built by John Gehrig in 1880 who has since occupied it.

The next house was built by Jacob Maichle in 1884 and has been occupied by him since.

The next house was built by Frank Hake in 1882 and occupied by him until his death in 1884, then for a short time by his widow, who in 1885 was married to John Holtzmeier who has since occupied it.

The next house was built by C. J. McDowell in 1874 for his farm house. It was first occupied by Milo Miller, then by Eugene Van Wormer, James Butler and James C. Green. The farm in April 1883 was purchased by Merritt Dusenbury who has since occupied it.

Across the street and a little east stands the house moved from A. Larrowe farm in 1850 to this location and has since been occupied by John Wemple.

The next house west is the Catholic parsonage, built in 1869 and has since been occupied first by Rev. Joseph Fenger, and since the fall of 1882 by Rev. George Zuercher.

The next building is the Catholic church, which will try and give in a separate article.

Upon the site of the next house stood a house which had stood there some years and was burned in 1887, the present one was built by George Wagner in 1868 who occupied it part of the time and rented to various parties until 1878 when it was purchased by Peter J. Roeker who occupied it until April 1883; it has since been rented to Henry Dyke and Albert Weisserman. Dyke left in September and another cigar-maker now resides there.

The next house west was built by Lewis Kimball in 1856 who occupied it until the fall of 1881, in 1881 who occupied it until his death in 1881. It has since been occupied by his widow and Peter Gehrig.

The next building west was first built on Main street in the north corner of the present Wood place by C. J. McDowell for his law office and occupied by him as such until 18— when it was removed to its present location and has since been occupied by Mrs. Jane Nash and her son James.

Next north is the home of John Peck, built in 1870 by himself and for his own use. It is a very substantial and pleasantly located building, and he can certainly wear the medal of having "made the wilderness blossom like the rose," for he is surrounded with choice fruit of all kinds, and has a pretty residence.

Next north is the residence of Solomon Garfield, which has been mentioned as having been built by Wm. Webb, and the location was the mill yard for the upper saw mill forty years ago. It is a large, plain, residence with neat surroundings, and has been Mr. Garfield's home residence for nearly a score of years. Between this and the Orasmus Webb place the old "Bobnick" passes, and the Webb place is not on Elizabeth street.

Next to the Webb place, further north, is the Deyo homestead, now occupied by Lafe Ehle on the north side and E. H. Stetson on the south. It is a large residence, situated on two families; it was built by Van Fossen Lyon many years ago, was sold to, and occupied by J. B. Lyon for several years, and for over twenty years has been occupied by the Deyo homestead, and has been occupied by members of that family until recently. Its grounds are ample and well fruited, and it is a pleasant residence.

Next north is the home of C. W. Fox, and he has made it a very beautiful residence. It was the Drohan property years ago, having been owned by Mr. Fox while Mr. Fox has owned it he has greatly improved it, in fact all its value and beauty has been made by him. As many of our best employments in the Perry knitting mill. Addition is quite elated over the prospect of oil just over the line in Pa.

The East Bloomfield telephone station is in general exchange for the Naples line.

A carriage road will be built along the lake shore from Hammondsport to Grove Springs.

The recent fire at Wallace burned out four stores and one hotel—loss aggregated \$30,000.

Warner's mill at Morris, Pa., recently cut over 58,000 feet of hemlock lumber in 10 hours.

Mrs. Charlotte Brown, of Bath, aged 80 years recently fell down stairs, and died last week.

Bath is having a new gas house and another main! Does that mean —is to have another paper?

Presiding elder Bissell was given a gold-headed cane when he closed his term of office for this district.

The Newark, N. Y., post-office has been increased from a third rate to second, with a salary of \$2,000.

D. G. Smith, of Phelps, was severely hurt Wednesday evening last, while returning home from Rushville.

Henry O. Moore, near Penn Yan, suicided by hanging a few days ago; he had lost his grape crop by the frost.

The State Blind Asylum, at Batavia, has been closed on account of malignant diphtheria. The inmates were sent to their homes last week.

A Sunday School Teachers' Association for Steuben county was held at Avoca Tuesday and Wednesday of this week with good attendance.

After the Wayland and Wallace fires, Dennis Larkin, of Cobcocton, and lumber men there, was the first to be on the ground to adjust. Gideon Pitts' horse, of Honeoye, was frightened by the cars at Livonia, last week, running away and injuring Mr. Pitts; but not seriously.

Wm. E. Adair took the first prize in musical instruments at the Henry lock fair recently, and has sold a large number since, giving good satisfaction.

A large number of republican lawyers in the 7th Judicial district have signed a resolution in support of democratic nominees for Supreme Court Justices to be voted for.

A. B. Vorhis, the Canistota defaulter, was arrested on a forged note of \$3, his friends "chipped in" and paid the note less than forty-eight hours and he was set free.

The talk is that Lima and Honeoye Falls will have the gas from the Bloomfield gas well carried to the towns for light and fuel; it seems to be feasible and measures are being taken to fulfill the project.

CHARLES OF FORTY YEARS. Now the west side of Elizabeth street calls for its mention.

As we have often said this street opens into Vine street, just where the old mill of creek turned around the bank to the upper saw mill, and we have said before, that Vine street was the old creek bed that in olden times ran along the bank from where Sutter and James C. Green's mill was located.

On the west corner of Elizabeth and Vine streets is the stately residence of S. Duane Lyon, which has stood here since the first clearing of a log lawn graded and improved since it was mentioned. Across the front of the lawn is where the old mill race ran, and even now its evidences are visible in the next lot north—the property of G. M. Lyon. It would interest the reader to look at the front part of the lot last mentioned, and we think, there can be seen plainly, and to the best of the old mill race near the top of the pond of the upper mill. This lot of C. M. Lyon's, as well as that of S. Duane Lyon's, and even John Peck's, next north, were the oak grove below and adjoining the creek, the building on C. M. Lyon's lot, but it is a fine peach orchard.
