

BLUE TUESDAY at Blue Tuesday Clubs by CLIFF PARHAM

Clean-Up time is here again. Let us get busy and bring out the broom, shovel, the rake, mop... whatever is needed... and spruce up the community...

Many people have started already. They are the early ones, and they do this year, and year out. Nothing new to them. I know some who never stop.

One thing that is needed very badly is for the Bottling Co. to cut out the throw-away bottle.

People buy them by the case and they will dump them any place but in their own back yard. Then they will put them in the family car and ride around the city until they find a spot where nobody is watching, and dump them. Then it becomes the responsibility of someone else to clean up the filth...

BUY BONDS

Blue Tuesday is for everybody who wishes to respond to it, and enjoy what is offered. You can have fun at these BITNites. I enjoy seeing people having fun when I know they are enjoying it.

You must get something out of life, but let it be something you like, and enjoy. And be happy after doing your thing! You could be surprised at what you do for others that are on the sidelines watching! You can sometimes see their eyes open, and a big smile appear.
