PLUM OF BOARD APPOINTEES

The recent election of Dr. George Blackman as President of the Buffalo School Board is another accomplishment for our group as well as the Board.

No one knows better than we about our desires to gain representation on boards. The first Negroes appointed to boards were Mrs. Evelyn Johnson and Dr. Byron McGuire to the Health Board; Rev. St. Franklin Jackson to the Planning Commission; the late Sherman L. Walker, to the temporary Board of Redevelopment and Clarence Manroey to the old Board of Community Relations.

Today, our people are now represented on a number of boards, committees and commissions. Blood gains opening with the Human Relations Board and the government's requirement of citizen's participation on housing and redevelopment boards.

In 1970, there are a grossly number of our group on boards and committees, etc., in the city, but Dr. Blackman's position is by far the choice one.

Founder of the Negro Scholarship Foundation, several years ago, Dr. Blackman, a talented physician and surgeon, is working in a field he has devoted time and money for the benefit of youths.

Since our children are fast becoming the largest single ethnic segment of the school system, it becomes a matter of fair play to place one of our members in this high post which he has well prepared to fulfill.

REBUILDING WILLIAM STREET

William Street may build back up to the thriving business thoroughfare it was until it was struck down by the Redevelopment program. The street boomed with activity and so was the main street for Negro businessmen.

ENTERING ANOTHER VOCATION

Arthur S. Anderson, a native Buffalonian, who has been active in Buffalo in several careers—politics, business and professions, will in a short time, add another career to his list.

Anderson, who operated a successful poultry business during the World War II, was an appointee of the City Council, becoming the second member of our group to become associated with our law making body when he served as stenographer. He later became a professional court shorthand specialist and a college entrance counselor.

His latest accomplishment was his graduation from the State University at Buffalo School of Law.

We wish Art the best of success as he begins to embark on a new profession. He has come a long way. A former representative of the Criterion, for several years in the late 30's, at Bethel A.M. Church, Art is now a family man, whose wife and children are also making great strides in the academic, education and professional circles.

-Managing Your Money- By Edward M. Donohue New York State Bankers Association

The National Industrial Conference Board's highly practical matter of economic information—utilized the appropriate purchasing power of the consumer—that means a lot to the man who is in the market for goods.

As a matter of fact, in most instances of buying or buying that have found themselves in a financial predicament about the budgeting in a monetary plan. The best way to avoid this is to plan your budget in advance.

A really sound indication on financial matters is to have a good budget. Don't believe that anything is so simple as to plan your budget in advance. It is really hard to do.

QUOTATIONS WITH A Meaning

"Who's getting her out of here?" you can't change your mind. You've got to stick to it. You've got to stick to it. You've got to stick to it. You've got to stick to it.

"Who's getting her out of here?" you can't change your mind. You've got to stick to it. You've got to stick to it. You've got to stick to it. You've got to stick to it.

LIVING UNDER LAW

A telephone operator tried to collect disability benefits on the ground that a public utility law has left her in a position where she could not work.

Furthermore, pain that is unbearable is not a disability under the law. The law says that if you are unable to work, you are disabled.

In the first place, a government job is not a disability. The law says that if you are unable to work, you are disabled.
