Personally Yours...

... means questions about *Junior Miss* etiquette, personality and poise.

Q. Patchwork are great for the weekend, but they don't suit my budget. When I get a raise, I have my heart set on a good party dress. How can I make them look dressier?

A. A better fit might do the trick. Have your dress taken in at the waist. Wear it with vests and tops that will add sparkle to your basic styling, they'll last longer. Take off your patches and put them on your bags and drapemats. Then, when you have a dressier party, you will have a lovely patchwork background before hanging up for a long, long time to come. Don't hesitate to toss some shoes. After a year, out of the long legs and into the low heels, they're comfortable.

Q. I babysit for the little boy next door and really like being with children. But when I'm with bedtime antics, it always takes half an hour to coax him past the bedroom door. How about some helpful suggestions?

A. Don't get your sitting salary without another try. Next time, remember that everyone's ear is left idle clearly when he should go to bed. Why not be quiet bear down for the bed time? Make it a game. Or tell him a story. Or read him a book. Or sing him a song. Or play him a record. Or put on your own show. Or tell him a funny story or a mock report about the way to downstairs.

Q. I'm writing these to be for Mother's birthday. Could you help me with some ideas? I have to make the event a special occasion?

A. Why not serve a buffet instead of a sit-down dinner? It will give the family something to talk about and make life easier for Mother. Change your menu to suit her favorites—a new shade of Kleenex puppet dinner napkins to suit or match with one of Mom's tablecloths, a new set of dinnerware. Bundled together, many these would please both Mother and Dad, as will anything that makes cleaner too. You can even order specials occasions for family members.

Your professional beautician knows the answer...

Why does some hair break off when combing?

Your hair is precious and delicate ... and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and chemicals, and improper shampooing are major causes of brittleness resulting in hair breakage. But, your professional beautician knows the answer to your hair problems! Visit your beautician regularly for the kind of hair care which you crave in contrast to the way your beautician does! Your professional beautician will call for and deliver supplies so easily that it should be suffered before combing. Therefore, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including virgin), most beauticians rely on Ultra Sheen Conditioning Hair Dressing. It's a pure petroleum base and for beautifying your hair in many other ways, trained beauticians know the answer for sure. Your professional beautician knows the answer for sure.

Ultra Sheen Conditioning Hair Dressing, who cares about your hair care and your comfort. Whether it's a wash and set, a permanent wave or a hair straightening, your beautician knows the answer for sure.

Diplomacy has turned into a dangerous game. When Mr. Rockefeller's entourage of the U. S. Ambassador to Brazil in the streets of Rio, it stood daylight. This conspicuous treatment hasn't been reserved only for American diplomats. The kidnapping and murder of the West German diplomat in Guatemala, which brought Bonn's severance of all diplomatic relations with that country. The kidnapping and subsequent murder of the Japanese consul general. Even the Vatican envoy to Brazil has been threatened.
