

Y To Establish Planning Com.

The YMCA of Buffalo and Erie County will conduct a study in the next few weeks to determine if the YMCA's activities should be placed in a separate planning commission.

The study will be conducted by a committee of representatives from the YMCA's various departments. The committee will report to the board of directors in the next few weeks.

The YMCA is a non-profit organization that provides a wide range of services to the community. These services include youth programs, health and fitness programs, and social services.

The study is being conducted in response to a request from the Erie County Board of Supervisors. The board is considering the possibility of creating a separate planning commission for the YMCA's activities.

It's A Fashion Countdown

It's a fashion countdown... the fashion world is looking for new ideas to make the "retro" look more modern and appealing. One of the most popular styles is the "bohemian" look, which is characterized by long, flowing dresses and wide-brimmed hats.

Another popular style is the "disco" look, which is characterized by shiny, sequined fabrics and bold, geometric patterns. This style is perfect for dancing and socializing at nightclubs.

The fashion world is also looking for ways to incorporate traditional patterns and motifs into modern designs. This includes using floral patterns, paisley, and geometric shapes in a more sophisticated and contemporary way.

Overall, the fashion world is looking for styles that are both fashionable and functional. This means creating clothing that is easy to wear, comfortable, and versatile.
