

# Call us before you start digging, and you won't have to call us later.

Last year, nearly 2,000 contractors, farmers, well-drillers and others who excavate had to stop what they were doing and tell us they dug up our phone cables.

Until our emergency crews could restore their service, our customers were not able to make phone calls.

You can prevent this disruption of

service by calling us before you start digging.

A call to the Underground Utilities Locating Service's special number for Buffalo—893-1133—(call collect if outside the city) will quickly bring a telephone man out to mark the location of buried cable, if there is any, in your work area.

# If you're a leader, we'll prove it.

We need bright, ambitious people. To teach other people. We're the 96th Training Division of the Army Reserve, and our job is to develop the leadership abilities of men and women.

You'll learn to speak before groups. You'll learn how to handle visual aids. You'll learn to manage others. To motivate them. To win their confidence. To supervise them effectively.

This is really management training. And it can take you a long way in any career.

You'll be paid while you learn and while you teach. From \$2.40 to \$4.50 an hour, depending on your rank. For 10 hours a month and two weeks each semester.

See how far you can grow. Call toll free, 9 AM to 9 PM, Dial 800-862-0002. Or mail this coupon.
