Horton Gives View On Monroe County Economy

A few weeks ago, the U. S. Census Bureau announced that

Monroe County was the 21st richest county in the country. We were one of the very counties in the top which contained a surplus crop, as well as a substantial amount. The number of farms carrying more than \$10,000 a year now exceeds by 100

percent before the war. The number of farms carrying more than \$10,000 a year now exceeds by 100 percent before the war. The number of farms carrying more than \$10,000 a year now exceeds by 100 percent before the war.

monies have brought many unemployed farmers and fishermen. The over-production of these and related crops has caused a depression for government to answer the needs of the unemployed, under-employed, underpaid and underpaid.

Congressman Frank Horton is fighting for an end to the fiscal, political, and trade conditions. His efforts to reform our penal system, provide transportation, housing, and better education have marked his battle to bring the policies of this nation into line with its needs.

Frank Horton is working for the return to Congress of its powers over war and peace, control over Federal expenditures, and for a free flow of information from the government to the people without unneeded secrecy.

He has earned your vote!
