Rev. T. Ransom Alcoholism Was Memorial Considered Service Speaker A Disease

A memorial service for the late Rev. T. Ransom Alcoholism was conducted by Rev. C. T. Sampson, pastor of Cedar Grove Baptist Church, at Zion Baptist Church, Maple and Vienna Streets, Buffalo, on Sunday, Nov. 26th. Rev. Snow is the new pastor.

Also participating in the service, sponsored by Cedar Grove Church, were Rev. Ernest H. Hemingway, assistant pastor of Bethel Tabernacle.

Rev. Ransom was unanimously elected by the Rev. Council of the Rochester Gold Coast Baptist Conference.

Rally Day Speaker

Rev. Craven also former Secretary of Education; Rev. Craven in his late 70s and early 80s was a prominent speaker and served as organizing manager for the Colonies in the Rochester area.

Iroquois Gas

(From Page 1)

ters Home Saving Association.

Mr. Raff then introduced Edith R. Green, Assistant Commercial Manager in charge of the Lancaster branch office and his staff. "It's a 4 operational facilities company," he said, "who pledges that with them the success of the Iroquois Gas will be assured."

Mr. Green then stepped up to the mike and stated that the purpose of the conference of the program, and in response to a question about why Iroquois Gas was selected for such a program, Mr. Raff explained that there are two companies which are recommended, it's simply a good idea to show prospective customers that you have money, and the other reason is that Iroquois Gas is an efficient operation of its kind in the United States and is a good, solid, financial strength in the gas supply picture."

Considered A Disease

In his sermon he drew attention to the fact that in 1956 the U. S. Supreme Court in the case entitled, alcoholism, was recognized legally as a disease which is now properly handled as a public health and rehabilitation problem, rather than a criminal case.

State legislatures in North Carolina, Illinois, Kansas, North Dakota, Connecticut, and Maryland have recently enacted laws which define alcoholism as a disease rather than a criminal offense.

Nationally, Congress, with any support, has enacted three major bills to deal with alcohol abuse. The Economic Opportunity Amendments (1967 and 1968) provide assistance to local programs for dealing with the severity of the alcoholic problem and the law for the rehabilitation.

In 1966, the Alcohol Rehabilitation Act became law. It enables general hospitals and health centers to receive federal construction matching funds from the Department of Health, Education and Welfare for the construction of facilities and services in this field.

"This is a serious and fundamental blood on alcohol and Dr. Morris Chafetz, director of the National Institute in his 1971 report to Congress. "His confusion has deterred us from creating a comprehensive and humane, non responsible attitudes toward drinking for those who choose to drink, and from using alcohol in a way which does not harm oneself or society."

It is important that in our concern over narcotics addiction, that we not abandon those who are victims of the more common problem of the heavy drinker. For after years of neglect and ignorance, it would take a concerted effort on the part of the U. S. Federal government, to find the search for the answers to the problem of the causes of, and the cure for, alcoholism and other forms of drug addiction.

Like the drug user, the drinker must also take some responsibility for his own problem. It is up to the government to provide better facilities for victims of alcoholism and other drugs, but the real problem will never be fully solved until society's attitude is changed to look on this with the love.

VA INFORMATION

Veterans eligible for VA benefits may be a drug problem, may receive help at the Veterans Administration Hospital where his problem will be kept in the strictest of confidence and treatment arrangements either there or at another drug center.
