Smith Reports On Lake Water Damage Victims

Congressman Henry P. Smith III (R-NY) this week disclosed that the issue of excess water damage which recently has plagued the Erie Basin, is presently being reviewed at the White House level.

In response to a telegram Smith sent to President Nixon on Feb. 22, stating anxiety of the residents in the special the conservation bureau-ing Lake Ontario, the White House reply stated that the situation "will be called to the President's early attention, and, in addition, shared with the members of the staff who are currently reviewing this problem area."

Rep. Smith has been pressing for federal action with other Great Lakes area Congressmen for some time. He said, "I have made individual and concerted appeals in the past to the White House for much needs of the Lake Ontario communities, and I shall continue in my efforts to get some positive action for these people who face a still grave or disaster with the imminent spring thaw."

He and She Whisky.
It's Canadian MacNaughton: the one whisky you can both call your own.
Because it's deliciously light, smooth and mellow for every young taste.
Yet it's still a premium 86.8 proof.
With a price that's as easy to take as the taste.
So, when you drink together, drink Canadian MacNaughton. It's twice as good that way.

Fashion Red-Eye

The new wide, flared pants are fun to wear but pain both women and men valiantly in the name of fashion. Discomfort is the namesake of a couple of conditions that can result from fashion egotism getting finer than fitness. Chafing of the inner thighs, scrotum, and perineum by down and bike chains and by tight, flared pants legs can feel both pain and fungus ... hence ... frequently causing itching. Wearing tight pants for athletic activities can cause the new wide pants are fitted properly and are not binding or too loose than the girth loses the pants are not binding or too loose than the girth loses

Poison Prevention

During National Poison Prevention Week, March 11-24, remember that any ingested poison constitutes an emergency. Keep the telephone number of your nearest poison control center by your telephone. Induce vomiting immediately after administering liquids or forcing the victim to vomit—all depending on the type of poison ingested. Keep on hand a bottle of syrup of ipecac and activated charcoal to induce vomiting in case of the ouch of small children. Mothers should avoid medicines in front of children, and should never refer to medicine as candy. Keep all medicines and household chemicals out of the victim to the nearest medical facility and bring along the medicine container and the vomitus.

Food Freezer Can Save Time And Money

Increasingly, American families are turning to freezing to the food freezer as a means of combating steadily rising food costs.

When used properly, the food freezer can become a money-saving, time-saving appliance, enabling her to purchase food in quantity when prices are low, thus saving time and money. And the advantages of freezing are even greater now that the cost of the large family — serving meal is at an all-time high. Even those who have small families can find ample use for a freezer in their kitchen.

Owning a food freezer is like having a supermarket in your own home, according to Chief Electric's Consumers Institute. Instead of making frequent and often costly grocery store trips to the grocery — supermarket, the homemaker with a freezer can shop only once to be ready for literally weeks. It is unexpectedly as well as to prepare meals in advance for future use.

Here are a few of the ways to help you get the most out of your freezer:

✓ Buy on a planned basis and in quantity. Items you don't usually need can be stored.

✓ Take advantage of seasonal specials when prices are lower, but beware of bargains that are not bargains at all. Your family's needs are the guide.

✓ Buy meats in quantity to obtain lower cost per pound.

✓ Stock up on fresh fruits and vegetables at the peak of the season when prices are lowest. Commercially packaged frozen foods are always available and is simpler and faster than canning.

✓ Process meat, leftover vegetables, and some time spent reading the use and care manual provided by the manufacturer can help you get the most out of your freezer. Proper packaging and wrapping your own "process" is appreciated.

Dick Gregory To Speak Mar. 20

Dick Gregory, black comedian and activist, will speak at Fosdyck Dickinson University on March 20 at 8 p.m. in the Student Union cafeteria as part of the Speakers and Issues Program of the Student Union Board.

Gregory, star of television and films, has worked tirelessly for the rights of blacks, appearing in demonstrations taking a stand against racial violence and serving time in Southern jails. He received an honorary doctorate degree from the Malcolm X College in Chicago in 1972.

He has a 2-week humorist tour scheduled for Vietnam. Veterans War and will continue his tour after his return released.

The appearance is the author of several books including "Nigger," "Write Me Free" "Up From Slavery Nor" and "Write Me Free."

His books, "No One Will Listen," The Myth and the Reality of American History," takes a serious look at historical myths which he feels have created a credibility gap between the government and the American people and a society practices.

The public is invited to attend Gregory's appearance. There is no fee. Full time students with ID cards admission fee for the public is $1.50.
