X-rays can be either therapeutic or diagnostic. Therapeutic means the x-ray is used to treat a specific illness such as a malignancy (cancer) of one of the body organs, the uterus or ovary, for example. In this case, the radiation itself is the treatment, it is the medicine for the illness.

## The L. A. Mayorality Election

(From page 2)  
ardians of race, color, or creed. Added to this, Rep. Herman Badillo, the first Puerto Rican ever elected to Congress, will face New York City Comptroller Abraham D. Beame in a runoff primary June 26. Beame received 24% of the vote while Badillo received 23% of the vote. Only time will reveal who the winner will be.

Today, there are approximately 90 minority mayors in America, including one woman, but most of them were elected on the voting power of the race.

## Two Clergymen Honored

There was one time in Buffalo that two similar events could be presented on the same evening and be successful.

However, on June 8th, the Prominental Baptist Church honored its pastor, Rev. T. Davis, dean of minority clergymen, at dinner in the Bleu Poyntz Supper Club, while Getthensome Baptist Church honored its pastor, Rev. Herbert V. Reid, on his 10th Anniversary at the Statler Hilton Hotel.

This paper recalls the entry into Buffalo of both clerics. Rev. Davis, who has done religious, social and political work here for 44 years, is our opinion can be credited with initiating the style and type of programs now being used by most minority churches in honoring their ministers, and used this press' service for these programs.

Rev. Reid, another young man large in stature, arrived in Buffalo just a few months following Amrose Lane, another young man of heavyweight size, and the two were introduced to each other in the Criterion office. Rev. Reid, having become a Moderator of the Western Baptist Association, is fast developing Getthensame into one of the area's leading churches.

Arriving here from Rochester with his family, Rev. Reid who also has an interest in social work, and during his first five years was a periodical visitor to the Criterion office and plant, has done an excellent job in his first dozen years of service in Buffalo.
